

VIMACLEAN

Concentrated cleaning liquid for ceramic tiles

Properties

VIMACLEAN is a concentrated cleaning liquid (based on organic acid), for cleaning cement and lime and respective mortars, as well as scale and rust.

Applications

VIMACLEAN is ideal for cleaning ceramic tiles, stone overlays, paving and concrete surfaces from lime, cement, plaster and joint grout residues.

In addition, it is suitable for fighting off lime scale and rust.

VIMACLEAN is also ideal for cleaning building tools.

How to use - Consumption

VIMACLEAN diluted with water at a ratio:

1 part by volume **VIMACLEAN**
5 -10 parts by volume water

Impregnate well the surface to be cleaned and after 2-3 minutes clean using a hard brush (not a wire brush).
Repeat cleaning in difficult cases.

CAUTION! VIMACLEAN contains organic acid and is corrosive. Do not use metal containers and tools for applying **VIMACLEAN**.

On marble surfaces always carry out a preliminary check in order to find out whether **VIMACLEAN** creates stains!

Moreover, you should not use **VIMACLEAN** on decorative wall tiles without testing first, as it can cause alterations.

Cleaning of tools

VIMATEC - N. VIDALIS S.A.
